Profile Summary

- Proficient in React.js Development: 3+ years of hands-on experience building dynamic, responsive web applications using React.js, Redux, and modern JavaScript (ES6+). Strong understanding of React lifecycle methods, hooks and state management techniques like Redux, Context API.Expertise in optimizing React applications for performance through techniques like lazy loading, code splitting, and efficient rendering.

Relevant Coursework

- React JS
- Data Structures
- Javascript ES6+
- Responsive Web Design
- Redux,Redux Toolkit
- API Integration
- Jest Testing
- Git and GitHub

Experience

UD IT Solutions   **April 2022 – Present**
Front End Developer(React JS)   *Mumbai, Maharashtra*

- Designed and developed dynamic user interfaces using React.js, Redux Toolkit, and modern JavaScript (ES6+).
- Integrated APIs and implemented state management using Redux, ensuring optimal application performance and maintainability.
- Built reusable components and front-end libraries, streamlining the development process and reducing redundancy.
- Collaborated with cross-functional teams, including designers and backend developers, to deliver seamless projects within deadlines.

AppWelt   **October 2021 – February 2022**
Full Stack Developer(Node JS)   *Pune, Maharashtra*

- Designed and implemented scalable RESTful APIs using Node.js and Express.js.Worked with databases like MongoDB and MySQL to manage and optimize data storage.
- Integrated JWT-based authentication and applied security best practices, including input validation and protection against common vulnerabilities.

Projects

Fintopedia | *React JS,React Router DOM, Typescript,Redux Toolkit,Formik,Material UI,Axios*

- Developed Fintopedia Platform: Designed and implemented a responsive website using React.js to offer stock market courses and video tutorials, similar to Udemy, enhancing the learning experience for users.
- Integrated Stock Market Game: Created an engaging event page featuring an interactive stock market game to provide users with a simulated trading experience and real-world market insights.
- User-Centric Features: Incorporated features like course browsing, secure purchasing options, and a seamless video streaming interface, optimizing user engagement and satisfaction.

True Homes Website and Admin Portal | *React JS,Redux,React Hooks,React Router DOM,Formik,Axios*

- Created an Android application using Java and Android Studio to calculate ticket prices for trips to museums in NYC.
- Processed user inputted information in the back-end of the app to return a subtotal price based on the tickets selected.
- Utilized the layout editor to create a UI for the application in order to allow different scenes to interact with each other.

Technical Skills

Languages: HTML/CSS,Bootstrap,Material UI JavaScript(ES6+),Typescript
Developer Tools: VS Code,Git,GitHub,NPM,Yarn,Postman
Technologies/Frameworks: React JS,Node JS,Express,React Testing,Jest,MongoDB,My SQL

Education

IMED Pune,Bharti Vidyapeeth   **August 2021 – September 2023**
MCA (Master of Computer Application)   *Pune, Maharashtra*

Extracurricular / Certifications

- Received the "JavaScript Juggler" award for exceptional JavaScript development skills.
- Certified in Node.js Development through Udemy, covering backend development and APIs.
- Certified in Jest Testing through Udemy, focusing on unit testing and test-driven development.
